### Random Paul/Edith fact:

Paul first tried the internet out at school. Nearly all the interesting web sites he wanted to go to were blocked by a 'non-academic' site exclusion filter. He was unimpressed.

## Animal info: Highland cattle

### Scientific name

*Bos taurus*

### Class

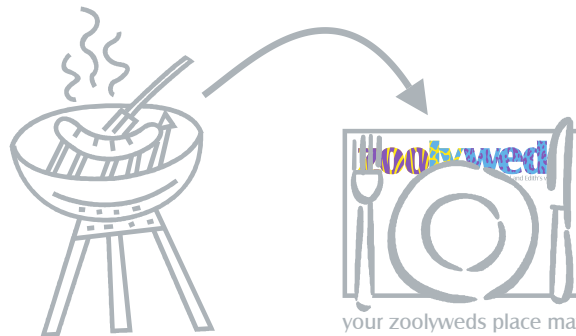

Mammal

### Region

Scotland

### Information

Highlands are known as a hardy breed, which will eat plants other cattle avoid. The meat tends to be lean, as they get most insulation from their thick shaggy hair rather than fat. This coat also makes them a good breed for cold Northern climates.
